

14. CUSTOMER PRIVACY POLICY & DATA PROTECTION GOVERNANCE

DOCUMENT ID: KB-DOC-014	VERSION: 1.0	STATUS: ACTIVE
CATEGORY: PRIVACY	EFFECTIVE: October 2026	LANGUAGE: English (EN)
OWNER: Store Policy & Operations Governance	CLASSIFICATION: Authoritative Public Policy	GROUNDING: Strict RAG Retrieval

1. Personal Data Collection & Utilization

[STORE_NAME] respects your privacy rights. We collect only the information necessary to fulfill apparel orders and provide seamless support:

- Account Details: Name, email address, contact telephone, and encrypted password credentials.
- Delivery Data: Physical delivery addresses, postal codes, and courier delivery instructions.
- Transaction Data: Payment gateway reference tokens and invoice histories (raw card numbers are never stored).
- AI Chat Dialogue Retention: Customer interactions with our RAG chatbot are securely logged in our PostgreSQL database to ensure quality control, resolve customer disputes, and identify knowledge base coverage gaps.

2. Data Retention & Customer Privacy Rights

- Conversation Retention: Chat dialogues are retained according to our operational retention setting (default: 90 days).
- Right of Access & Portability: Customers may request a copy of their stored account data by contacting [SUPPORT_EMAIL].
- Right to Erasure: You may request complete deletion of your account and personal identifiers, subject to legal tax record retention requirements.

KNOWLEDGE BASE NOTICE & RETRIEVAL BOUNDARIES: This document is an authoritative policy reference intended for grounding our store AI/RAG assistant. Store policies, shipping charges, return periods, and operational terms are governed by active store settings. Dynamic customer data—including live product prices, real-time variant inventory, order shipment tracking, user profile addresses, and coupon code validity—must ALWAYS be resolved via live PostgreSQL application database APIs rather than static document text. If information is not covered within this knowledge base, the chatbot must clearly state that the information is unavailable and offer customer support assistance.
