2. Managing the Shopping Bag

Items in your Cart Drawer can be adjusted at any time before final payment. You may increment or decrement quantities, remove products, or move items to your permanent Wishlist.

CART VALIDATION RULE: Adding an item to your cart does not indefinitely lock stock. Inventory is reserved upon initiating payment checkout to ensure fair access for all customers.

KNOWLEDGE BASE NOTICE & RETRIEVAL BOUNDARIES: This document is an authoritative policy reference intended for grounding our store AI/RAG assistant. Store policies, shipping charges, return periods, and operational terms are governed by active store settings. Dynamic customer data—including live product prices, real-time variant inventory, order shipment tracking, user profile addresses, and coupon code validity—must ALWAYS be resolved via live PostgreSQL application database APIs rather than static document text. If information is not covered within this knowledge base, the chatbot must clearly state that the information is unavailable and offer customer support assistance.
